## Pamplins give \$500,000 to library

A \$500,000 gift to the Augusta College Foundation from Mr. and Mrs. Robert B. Pamplin of Portland, Oregon, has been announced by AC President Richard S. Wallace.

The gift will be used to establish the Katherine Reese Pamplin Endowment for the Reese Library, Dr. Wallace said.

The Reese Library is named in memory of her parents, Dr. and Mrs. John Thomas Reese. Mrs. Pamplin is the wife of Robert B. Pamplin, former head of the Georgia-Pacific Corp., and now chairman of the R.B. Pamplin Corporation.

The Pamplins have been the strongest supporters of the Reese Library, according to AC Librarian Ray Rowland. "It was their gift of \$250,000 in 1972 that served as the catalyst for the Board of Regents of the University System of Georgia to approve funds for a new library building at the College," he said.

*"Overall, the Pamplins' gifts and commitments to Augusta College have approximated \$1 million." ... Wallace*

"Their continued funding over the years was responsible for the AC Reese Library moving from one of the smallest academic library collections to one of the largest. We are now the fourth largest in the University System, following behind only three universities," Rowland said.

Overall, the Pamplins' gifts and commitments to Augusta College have approximated \$1 million, Dr. Wallace said.

## Paine president to speak at graduation

Paine College President Dr. Julius Scott, Ph.D., will be the speaker at summer commencement on Friday, Aug. 31, at 8 p.m. in the Grover C. Maxwell Performing Arts Theatre.

Approximately 128 graduates will receive degrees ranging from associate to specialist in education at August College's final summer graduation. Beginning in 1991 commencement ceremonies will be held in June and December.

## Foreign language study making comeback

The study of foreign languages is making a comeback at AC with four revived programs to be offered this fall. The Department of Languages and Literature is offering straight French and Spanish majors. French and Spanish language education programs that would allow graduates to teach these languages to elementary, middle, and high school students are also being offered.

The bachelor's level French Education Program recently received administrative approval from the Georgia Department of Education Office of Evaluation and Personnel Development. In a letter to Dr. Joseph Murphy, dean of the School of Education, Dr. Candace Norton, director of Teacher Education said "I am impressed with the strength of faculty in content as well as methodology . . . thank you for enhancing foreign language teacher preparation opportunities in Georgia."

### Personnel Office PostScript

A chain letter instructs the reader to send out numerous copies of the letter, usually in order to achieve personal gain. The subject matter normally concerns an illegal pay back scheme or superstition.

Numerous chain letters were recently distributed on campus. Not only was the distribution of the letters a policy violation as well as misuse of the mail service but the on campus preparation of chain letters constituted misuse of Augusta College work time, copy paper and copy equipment.

### SACS update

Continuing Education, School of Education, and Political Science have been added to the list of SACS studies which are available for review at the Reese Library Reserves Desk.

These departments join History, Sociology, Mathematics, School of Business Administration, Military Science, Student Affairs, Fine Arts, Chemistry & Physics, Developmental Studies, Reese Library, Psychology, Nursing, and Languages and Literature which have been available.

## Tony Kellman releases new book

Barbadian writer Tony Kellman, an assistant professor of English and Creative Writing at AC, has just had a new book of poems released. The new collection, entitled *Watercourse*, is published by Peepal Tree Press of Yorkshire, England.

"The 64-page book is, simultaneously, a celebration of Caribbean life and a reprimand of neo-colonists in the region and, particularly, Barbados. The book's central metaphor is the passage of water (around and through the island of Barbados, an island made of porous limestone) as life-giver and as an agent of necessary ritual purgation in socio-political terms," Kellman said.

### Check Your Safety Habits at Home

- ☐ Do you know your neighbors? Do you look out for them? Do they look out for you?
- ☐ When the door bell rings, do you check to see who it is before opening the door?
- ☐ Do you always ask a sales person, meter reader, repair or delivery person to show an identification card before letting him or her in?
- ☐ Do you caution your children and babysitters not to open the door to unexpected visitors and delivery persons?
- ☐ Have you and your neighbors cleaned up dirty alleys, litter and broken windows? They all attract crime to your neighborhood.
- ☐ Do you hang up immediately on nuisance and obscene phone calls?

Dr. Ralph Walker, acting chairman of the Department of Political Science, said, "People can be prepared to enter one of the fastest-growing careers in just nine months. ### SACS update

A second draft of the SACS self-Study Report is now on SACS reserve at the main desk in Reese Library.

While appendices are not attached, summaries and recommendations are. The faculty is invited to peruse these drafts (call for "Draft II") and to make comments, although at this point little, if any, alteration is possible.

Sections I and II are virtually as they appeared in the first draft. Section III, the thorniest of them all, had to undergo extensive rewriting and re-organization.

John Schaeffer said the entire document will go to press by Dec. 17 or he and Jim Garvey will have to enlist in "Operation Desert Shield."

### Personnel Office PostScript

If you have not recently updated your Federal and/or State Withholding Allowance Certificates (W-4/G-4) you may wish to do so for 1991.

You may stop by the Personnel Office to complete the form(s) or call 1763 to have the form(s) mailed to you for completion.

The final paycheck stub received in December 1990 will reflect your year-to-date deductions and reductions for 1990. Your W-2 statement will be included with your paycheck at the end of January 1991.

## AC Sociology Club sends books to Poland

Persistence and hard work paid off for the AC Sociology Club in its efforts to collect books from AC faculty, staff, and students to send to the Marie Curie University in Poland.

Thanks to contributions from throughout campus, 37 boxes of English textbooks are on their way to the Polish Embassy in Washington, D.C., and then to Poland, a country in dire need of English textbooks.

Sociology Club President Michelle Canchola engineered the feat which was brought to the attention of the *Augusta Chronicle-Herald*. The papers ran news stories and later an editorial. Michelle convinced an Embassy official to ship the books to Poland—which he agreed to do—provided the students could get the boxes to Washington, D.C., by May 18. Thanks to Diane Fennig in The Career Center who had a contact with UPS, the firm contributed monies to the Sociology Club which made the shipment to Washington possible. The total weight of the shipment was 1,850 pounds. Thanks to everyone who made this very successful student project a reality!!!

## Summer enrollment up

Summer quarter is underway with a significant increase in enrollment over last summer's figure, according to Dr. Bill E. Bompert, acting vice president for academic affairs.

Following late registration, the summer quarter head count figure is 2,939. This compares to last year's 2,741. In addition, the 7 a.m. classes-- first offered last summer in a concerted effort-- have exceeded all expectations in popularity. The early option was initially offered due to a lack of classroom space. "We thought we were going to have to encourage students to sign up for the 7 a.m. classes, but we certainly didn't need to," Bompert said. In fact, the 7 a.m. classes filled faster last fall than any of the other classes.

In other news, Bompert said the renovation of the old gymnasium is ahead of schedule and should be ready for fall quarter classes. The renovation includes four new classrooms, 18 faculty offices, a biology lab, and a physical science lab.

Fall quarter should also see the advising center take shape. The center will be designed to advise undecided majors. It is hoped that eventually a Center for Freshman Studies will be created, where all freshman students will be advised.

Skalak, Professor Emerita of Nursing and Chair Emerita of Nursing; and Marvin Vanover, Professor Emeritus of Health and Physical Education. All titles will take effect July 1.

In other Board news, Regents approved President Wallace's request to establish the Cree-Walker Professorship of Business Administration.

### Paulette Canale parts

Much to the sadness of the campus community, Personnel Specialist Paulette Canale bid AC a fond farewell last week. Paulette was honored at a reception last Wednesday in Fanning Hall. A resident of Augusta since 1982, she joined the AC Business Office and worked there for two years before being promoted to personnel specialist three years ago. Her husband Ralph was transferred by Beech Aerospace Services, Inc. to Madison, Mississippi, where he is currently working. Their daughter Cindy and grandson Ryan will join Paulette there. We'll surely miss that sunny smile!

### Computer Svs. extends hours

Across America, computers have revolutionized both the workplace and the classroom—and now, they're even affecting the dinner hour for a group of AC computer specialists.

Because of increasing demands for computer expertise after regular working hours, the Office of Computer Services has expanded its hours to accommodate the needs of those who remain on campus after the "9 to 5" crowd has left.

Beth Bridgon, director of Information Services, said, "We've expanded our services without adding personnel, which means that four members of our staff rotate shifts to be here until 9 p.m. each evening. The staff is what makes this work—they're committed to making sure all our students, faculty, and staff have access to help if and when they need it." Computer Services staff formerly left campus at 4:30 p.m. each night, but were on call.
